

WE GET MIGRATIONS CAN BE COMPLICATED.

CDW Amplified™ Hybrid Cloud
Migration and Planning Service

CDW eases the transition related to migration and helps with the critical elements of optimization, cost, experience, management, support and more. CDW provides a comprehensive suite of options based on your needs and where you are on your migration journey. CDW will take a consultative approach to helping with your transition. We will take the time to learn about your business, your challenges and your goals. Armed with that knowledge, we will create a graceful and efficient migration strategy.

CDW's Migration and Planning Service can help you achieve:

Operational
Efficiencies

Agility

Faster
Innovation

Orchestrating the Right Solution

Growth in cloud-based services and infrastructure means organizations are finding it harder to plan and implement complex technology, especially in the cloud. CDW will help you strategize, assess, adopt and integrate securely and seamlessly to the cloud.

Migration and Planning Services (MAPS) is a comprehensive suite of consultative planning options to help your business gracefully and effectively move *the right* workloads to the cloud.

- **Migration Adviser** is a high-touch consultative service which will provide you with both industry best practices and custom strategies and information based on your unique business.
- **Migration Consultant** takes this to a whole new level using the very best tools and talents in the industry to provide you with an actionable deliverable.
- **Migration Director** puts it all together, combining Advisor and Consultant and then doing the work, moving you and the workloads that work best in the cloud, up to the cloud.

CDW's full lifecycle of Services can support your business no matter where you are on your journey

CDW GETS HYBRID CLOUD

With more than 20 years of operational experience, CDW engineers have seen it all and their expertise provides you with the most graceful migration possible. CDW uses an intelligent selection process to provide the critical analysis needed to migrate the resources that will work best in the cloud and be the most beneficial to your business.

CDW will provide you with the best solution, whether on-premises or in the cloud. CDW's world-class technical experts will help you determine which workloads will work best in the cloud and those that will work best on-premises. Our experienced data center team can optimize your on-premises environment to enable cost savings and operational efficiencies.
